

## **Factsheet:**

### **About us**

#### *Our vision*

Curilion is an independent clinic, recognized and licensed by the Dutch Government, with specialists in the areas of gynecology, urology, sexology and ultrasound. Curilion is characterized by its high quality of care for women, by (female) experts and accessible, personal support and short waiting times.

Curilion was established in 2017 by dr. Manon Kerkhof, gynecologist and urogynecologist (reconstructive pelvic floor surgeon). Accessible, integral care by and for women, in a relaxed setting, where time and attention are just as important as knowledge and expertise. That is what dr. Kerkhof and Curilion stand for.

By not only taking your physical complaints into consideration, but by acknowledging what these issues mean to you and how they affect you we can offer you a tailor-made care program. Because you, and only you, know what is right for you!

#### *Our team*

The Curilion team provides expert (para-)medical care for women, tailor-made to your needs. We provide personal focus, understandable information and a joint decision-making process. So, in close collaboration with you, our patient, we determine the care you need, tailor-made to your wishes, both physically and mentally.

Our staff includes three gynaecologists:

Dr. Manon Kerkhof

Dr. Ruby Catshoek

Dr. Irene Moolhuizen

plus

Procto- surgeon Dr. Vera Rempe

(Pelvic) Physical therapist Bettyleen de Vries

Sexologist Ingeborg Timmerman

Psychologist Dr. Christien Brouwer

Dietician Lidia Bernabei

Our medical staff is supported by assistants

Silja Arends
